

# Start Strong Results 2022-2023

Dr. Sandra Cullis  
January 23, 2023

# What is *Start Strong*?

- **New Jersey Assessment of Previous Year's Standards**
  - **Administered in September**
  - **Grades 4-8**
  - **1 Math test, 1 ELA test**
  - **1 Science test for Grade 6 only**
  - **20-25 questions per test**
  - **Each test 45-60 minutes**
  - **Same accommodations as NJSLA**
  - **Originally designed as an optional pre-test**
  - **Required in 2021 & 2022 to address learning loss**
- 

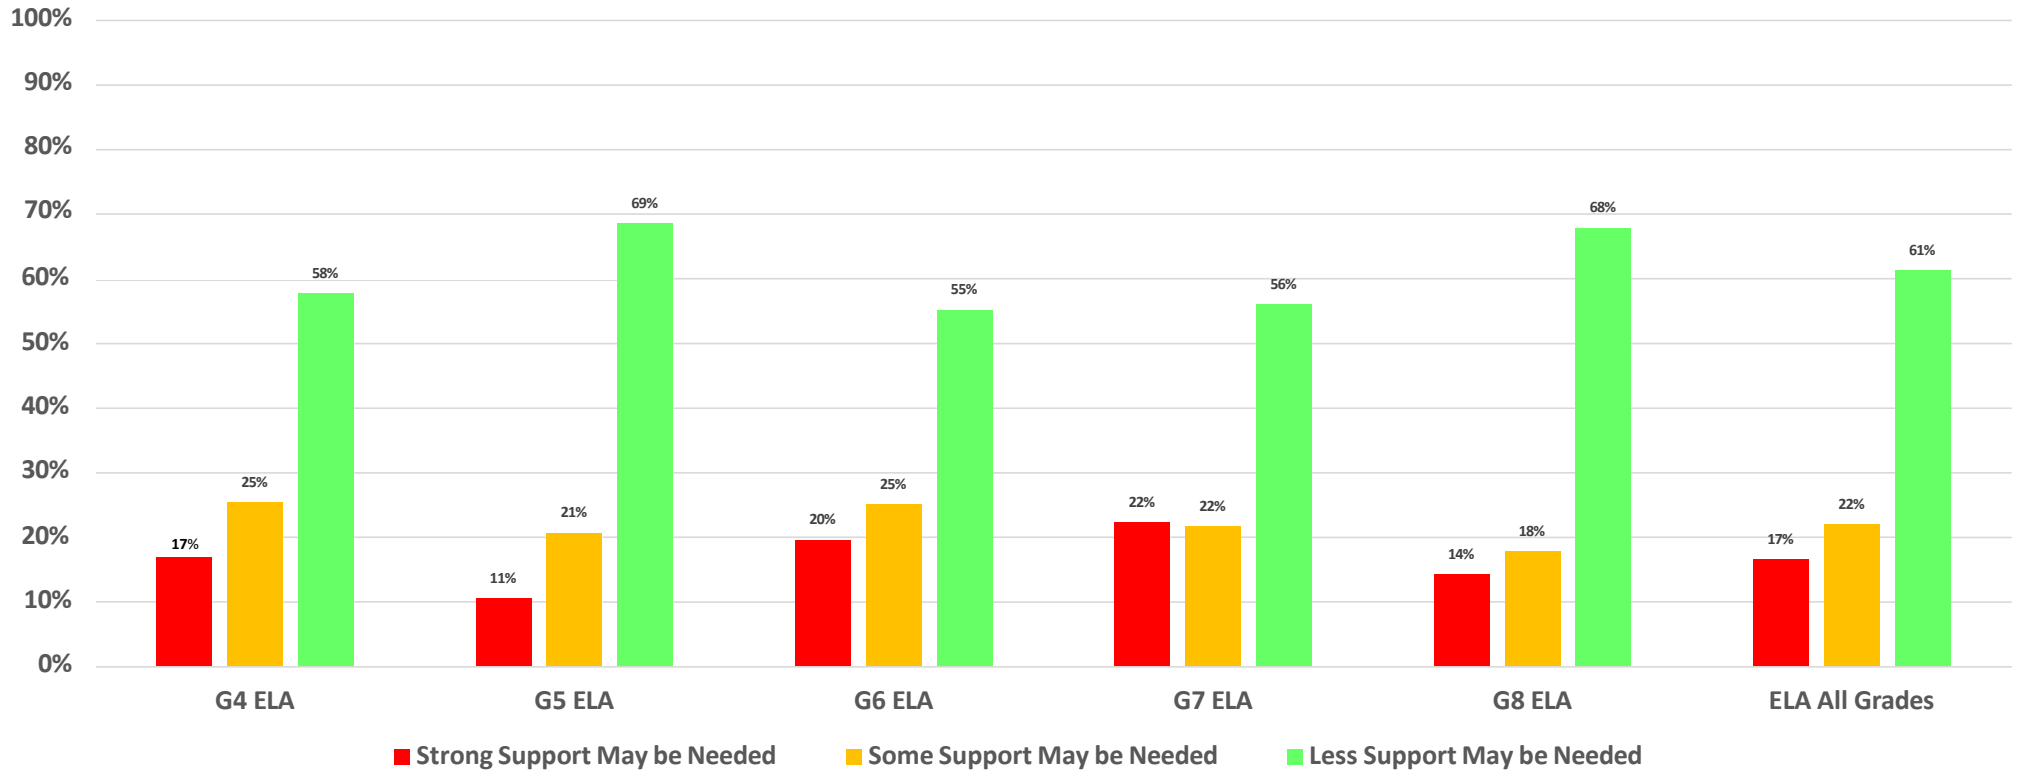

# Start Strong Data

- **Immediate results to districts**
  - **Student reports for parent available in December**
  - **Scored as “Less Support May be Needed”, “Some Support May be Needed”, or “Strong Support May be Needed”**
  - **Administration and Teachers use data to insure appropriate supports are in place**
-

### ELA/Language Arts

Distribution by Support Level (All Grades)

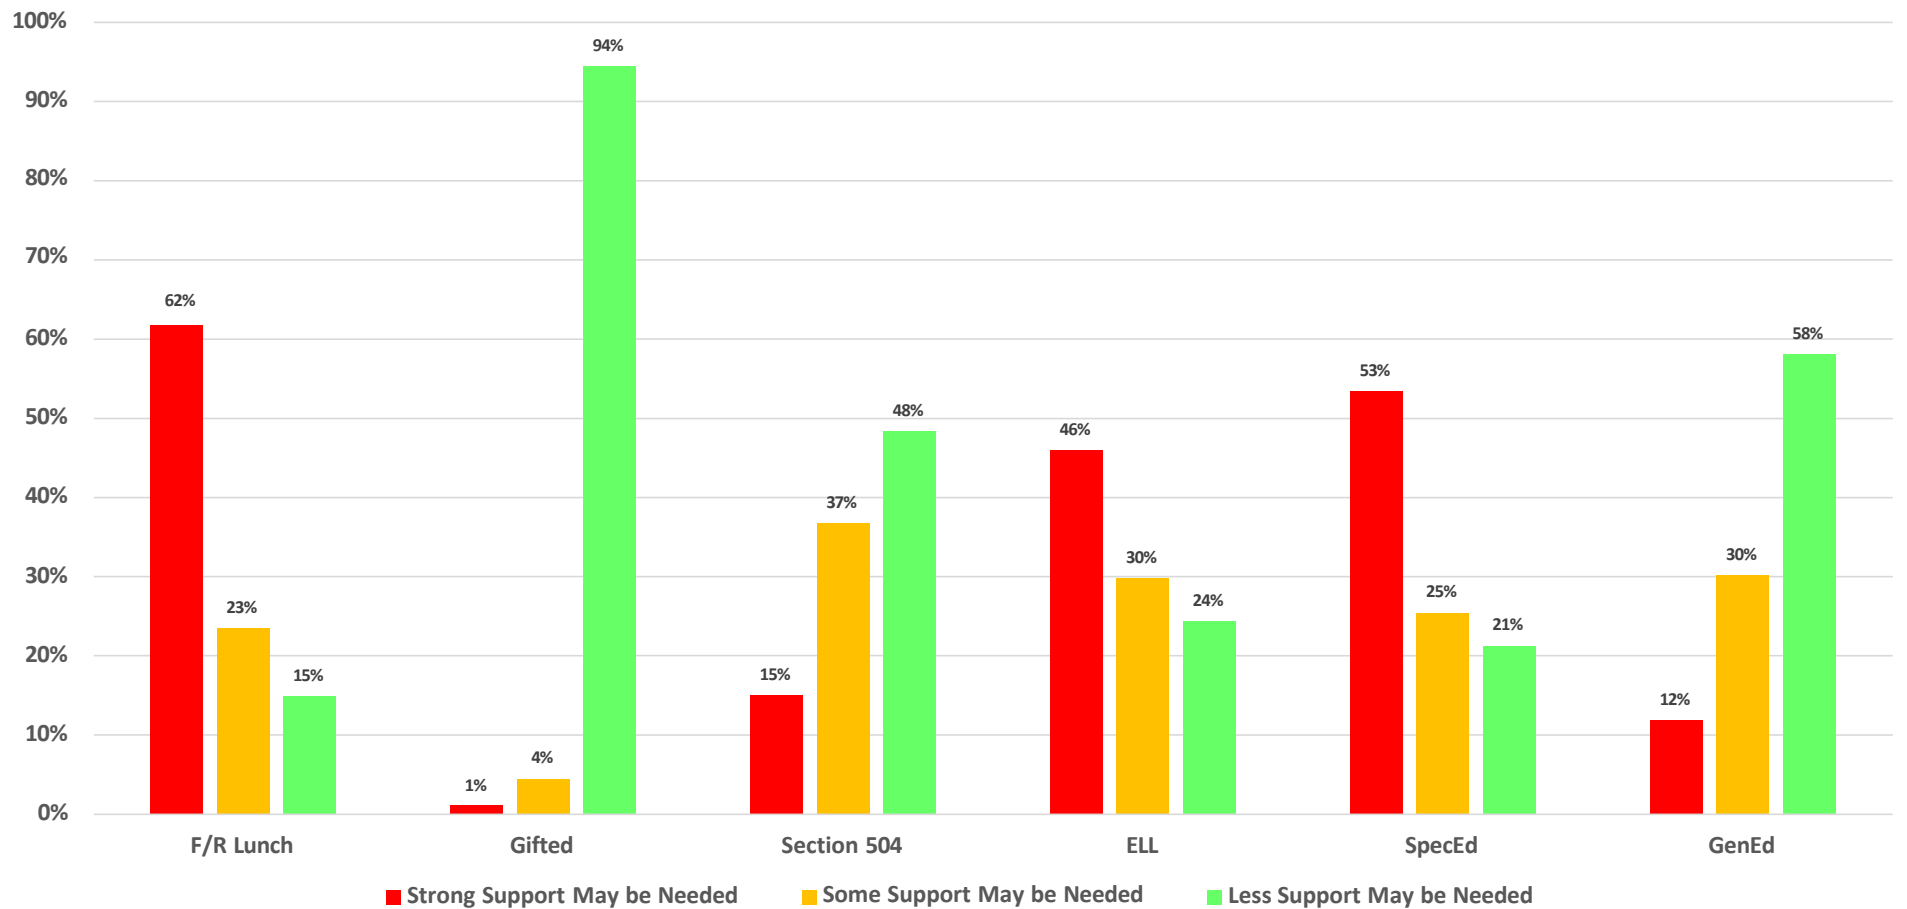

# DENVILLE

## 2022-23 Fall Start Strong by Subgroup Program

### Mathematics

Distribution by Support Level (All Grades)

# Data Interpretation & Impact

- **NJSLA results of standards received in August, Start Strong administered in September over same standards**
  - **Most students do not attend summer academic programs**
  - **Results did not differ significantly from Spring NJSLA administration in April-May**
  - **100% of the elementary students identified as “Strong Supports May be Needed” were already receiving support through an IEP, 504, Basic Skills, and/or TSS**
  - **95% of the middle students identified as “Strong Supports May be Needed” were already receiving support through an IEP, 504, Basic Skills, and/or TSS, now 100%**
  - **Useful for confirming appropriate supports, new student skills, and checks and balances to insure no students fall through cracks**
-
